Gifts your clients will keep for years

Copper and brass are gifts people use every day and remember for years, not boxes of sweets forgotten in a week.

Purity you can test

Every piece we sell as pure copper is solid copper. We send samples first so your team can check purity, weight and finish before you approve. Lab test reports on request for large orders.

Delivered to every door

Share an Excel list of recipients. We pack each gift with your message card and deliver straight to every client or employee, anywhere in India, with a status sheet for you.
